Qualification

Statement of Qualification

Manufacturer of object tested: ATLAS COPCO TOOLS AB
Tooltec Division
105 23 Stockholm
Sweden

Component tested: Screwdriver system

Type: ETF MT 200

Tests performed: Random sample measurements of particle emission (airborne) at representative points

Test parameters: Revolutions: 100 1/min
Cyclic operation: 5s move to 1s delay time

Test results / classification: The screwdriver system ETF MT 200 is suitable for use in cleanrooms fulfilling the specifications of Air Cleanliness Class ISO Class 5 (according to ISO 14644-1).

Standards / guidelines used for the qualification: VDI 2083 Part 1, 4 and 9.1; ISO 14644-1

Test parameters of the cleanroom environment: Cleanroom of Air Cleanliness Class ISO Class 1 (according to ISO 14644-1)

Air flow velocity: 0.45 m/s

Air flow guidance: vertical unidirectional air flow from ceiling to floor (raised floor)

Temperature: 22 °C ± 0.5 °C (71.6 °F ± 0.9 °F)

Relative humidity: 45 % ± 5 %

The measuring equipment used for the qualification is regularly calibrated and is based on national and international standards. In the case where no national standards exist, the measuring procedure used corresponds with technical regulations and norms valid at the time of the measurement. The documents drawn up for this procedure are available for viewing.
