Germany

Test result / Classification

The work chair IS20760 166481 0426 fulfills the ESD requirements for EPAs (ESD-protected areas) of surface resistivity, volume resistivity and discharge resistance according to DIN EN 61340-5-1 and DIN EN 61340-4-1.

Component tested

Category: Working Place and Operator
Subcategory: Chairs
Product name: Work chair IS20760 166481 0426
(manufacturing date: 11/2015; upholstery: 0426/Imitation leather, black, conductive; article number: 166481)

Test parameter	Operating voltage [V]	Resistance [Ω]	Rating
Surface resistivity	10	1.7 E + 05	electrostatically discharging
Volume resistivity	10	3.1 E + 09	electrostatically discharging
Discharge resistance	10	2.1 E + 06	electrostatically discharging

Electrostatic discharge measurements at representative points (surface resistivity, volume resistivity, discharge resistance)

Standards/Guidelines:

DIN EN 61340-5-1; DIN EN 61340-4-1

The stated norms are generally those that were applicable at the time the tests were conducted.

Test devices:

- Data capture: Tera-Ohm-Meter, type 6206, Eltex GmbH
- Measuring probes (2 pieces): ETS Model 850 (2.5kg), Electro-Tech Systems Inc.
- Counter electrode:
 - type: stainless steel plate
 - dimensions: 1000 mm x 500 mm (± 2 mm)
 - thickness: 1.2 \pm 0.1 mm
- Insulating mounts:
 - type: planar PTFE-sheet with $R > 10^{14} \Omega$
 - dimensions: 1210 mm x 1200 mm (± 5 mm)
 - thickness: 5 mm (± 1 mm)
- Cleanroom Air Cleanliness Class (according to ISO 14644-1): ISO 1
- Airflow velocity: 0.45 m/s
- Airflow pattern: vertical laminar flow
- Temperature: 22 °C \pm 0.5 °C
- Relative humidity: 45 % \pm 5 %

Test environment parameters:

The measuring devices used for the qualification tests are calibrated at regular intervals; their results can be traced back to national and international standards. In cases where no national standards exist, the test procedure implemented complies with the technical regulations and norms applicable at the time of the test. The relevant documentation can be viewed on request at any time.

For further information about the test environment and parameters, please refer to the Fraunhofer IPA test report.
