Fraunhofer

TESTED[®] DEVICE

Ammega Group B.V.
DS2QM240ESD
Report No. AM 2507-1651

Single product Electrical Resistance in Dry-Cleanroom

Qualification Certificate

This is to certify that the product mentioned above, provided by

Ammega Group B.V.
Heerhugowaard, The Netherlands

has been awarded a Fraunhofer certificate TESTED DEVICE bearing the report number AM 2507-1651.

The transfer system DS2QM240ESD pallet conveyor (material: aluminium) was tested based on IEC 61340-2-3 to measure the electrical resistance. The maximum test result lies below the required limit value of $1 \times 10^9 \Omega$ specified in IEC 61340-5-1 for ESD protective elements.

Resistances to groundable point (R_{gp})		
Measuring points	Max. σ -values [Ω]	Limit value
Potential to contact ESDS	3.2×10^4	fulfilled
Without potential to contact ESDS	3.5×10^4	fulfilled
Point-to-point resistances (R_{p-p})		
Measuring point pairings	Max. σ -values [Ω]	Limit value
No potential to contact ESDS – potential to contact ESDS	6.7×10^4	fulfilled
No potential to contact ESDS – no potential to contact ESDS	5.4×10^{10}	fulfilled

This document only applies to the named product in its original state and is valid for a period of 5 years from the date the first document was issued. The document can be verified under www.tested-device.com.

Detailed information and parameters of the test environment can be found in the Fraunhofer IPA test report.

The norms stated generally refer to the version valid at the time of the tests.
